## CORE WORK SKILL

- Problem Solving
- Critical Thinking
- Work Ethics
- Teamwork & Collaboration

## PROFILE SUMMARY

An Information Technology student at PHINMA-University of Pangasinan specializing in front-end web development with a strong foundation in HTML, CSS, and JavaScript. Adept at translating design concepts into responsive and user-friendly websites, with a keen eye for detail and a passion for creating visually appealing interfaces. Proficient in utilizing popular front-end frameworks and libraries such as ReactJS to enhance user experiences. Skilled in troubleshooting and debugging code, ensuring seamless functionality across various browsers. Proactive learner committed to staying abreast of the latest industry trends and technologies, with a goal to continuously expand technical skills and deliver cutting-edge solutions. Eager to contribute creativity and technical expertise to dynamic and collaborative development projects.

## EDUCATION AND CERTIFICATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY  
PHINMA University of Pangasinan | September 2020 – Present

- Specializing in Web Development

## PROJECTS

- Dagupan Hub**  
Collaboration Project | August - October 2022  
ReactJS | Laravel | MySQL | PHP | XAMPP | Tailwind  
  
Worked with a team to design and develop an ecommerce app available for both mobile and web application. It allows people from Dagupan and from neighboring municipalities and cities to buy and sell physical goods like manufactured processed products, medical supplies, food preservation, furniture etc.
- Pedro Hub**  
Capstone Project and Research 1 and 2 | August 2022 - March 2023  
Bootstrap | HTML & CSS | JavaScript | jQuery | XAMPP | MySQL  
  
Worked together as a team to create and develop a website for PHINMA-UPang Pedro hub. It offers solutions to commonly asked student questions and includes a chatbot to track inquiries and respond to students' queries.
- CleanGo**  
Group Project | October 2021 – November 2021  
Figma  
  
Collaborated with a team to create a cutting-edge device that offers cleaning services for homes or businesses via online booking through our application. This positions our proposed venture within both the Home Services and IT industries.
